Ellie Day Activewear

Otis College of Art and Design

About

Ellie Day Activewear is a line of contemporary sportswear, designed by Ellie Day Spoerer. It was created to bring a feminine voice and appreciation for beautiful clothing to a space dominated by menswear styling and fast-fashion processes.

Behind the Seams:

I was born in April 1978 after my mother walked the Houston Golf Open to kick-start labor. While many relatives had taken to the sport, I was convinced early that I was destined to be a designer, preferring creative play without rules or a strict code of conduct.

A part-time high school job at Banana Republic, and later J.Crew fueled a shopping habit, and spend hours planning head-to-toe looks. In 2000 I graduated from the University of Illinois Chicago in Chicago with a BS in Advertising and pulled together my ideas at Chicago Portfolio School. I headed off to New York in pursuit of my passions, and internship at Betsey Johnson.

At Betsey Johnson, I assisted her stylist, Monica Paolini (Founder of SEA NY) in all things pattern, color, and vintage sourcing. She taught me so many things, but especially that I wanted a line of my own design.

2005 I began freelancing for various designers including Ann Ferriday and LuLu Lame (not Lemon) and completed Patternmaking at OTIS College in LA. I spent hours merchandising for Urban Outfitters and Anthropologie creating spaces women could feel great in, and love the way the items made them feel.

In 2009 my first child was born, someone gave me a book about newborns and it detailed something like "new babies sleep on average 18 hours a day". PERFECT I thought it's time to launch my own line.

The first iteration of Ellie Day focused on ready-to-wear with a few red-carpet looks for Natalie Tria and others in LA. For the next 10 years, I played in a space of capsule collections, and trunk shows and learned a ton about how to dress women and market things to friends of friends. Eventually, we moved back to Chicago, IL for the promise of free babysitting and cousins to play with. My husband joined a golf course, and I started working for the women's wine event and have golfed since.

2019 a friend turned to me as she hit a perfect bomb drive down the fairway. "Hey! What about making something that looks good for women to golf in?"

Ellie Day Activewear, born April 1, 2021 (my pandemic baby) creates beautiful clothing so women can golf, play tennis, run errands...and basically be their most authentic awesome selves. It's all about women, and that is my passion. Come check it out online <https://www.ellieday.com>

HOW DOES IT FIT?

This is the number one question I get from online shoppers. I'm here to tackle fit and women's wear sizing questions! If you are not finding this helpful and still have questions...please email us at sales@ellieday.com

WOMEN'S GREEN SKORT WITH 4-WAY STRETCH:

Outstanding moisture-wicking performance fabric in a beautiful green color perfect for golf or tennis.

Made in Chicago, IL this is the best performance skort for tennis or golf. Women love the soft peached fabric of the green skort and we will use this fabrication to create more soft women's golf and tennis skorts!!!

Performance oriented this women's green golf skort is perfect for tennis because of the outstanding elastic drawstring also available to cinch the waistline perfectly and help support active and competitive play.

FIND IT HERE:

<https://ellieday.com/collections/golf...>

HOW IT FITS:

Very stretchy with heavy-duty super soft fabrication fits typical US sizing as follows:

XXS 0-4 XS 4-8 S 6-10 M 10-14 L 14-18 XL 18+

Ellie Day Activewear started by creating apparel that women love to golf and play tennis in. Utilizing designer prints, Ellie Day Activewear also creates yoga Pants, yoga Leggings, and Sports Bra in Expanded sizes.

Yoga, Tennis, Golf layering hoodies, sweatshirts, jackets.

Designed in Chicago, IL.

Make Your Chorizo Meal Unforgettable

What Are the Benefits of Buying Your Chorizo Directly from the Manufacturer?

Speak with a rep directly

 219-677-2064 | Edward Garza

 sales@elpopular.com

It's cost effective

The primary benefit of buying your chorizo directly from a manufacturer is the cost savings. When you buy it elsewhere it is often privately labeled, which drives a 15% to 30% markup on that product. At the end of the day, the retailer is going to be at a disadvantage, which also puts the consumer at a disadvantage.

In fact, when you look at all the brands of chorizo on the market today, less than 20% are actually made by the manufacturer. The other 80% are from a cold pack or private label program.

In the Chicago and Midwestern U.S. area, El Popular is one of the only manufacturers of Chorizo, which gives you an idea of how truly rare it is. What sets El Popular apart in this regard is that we offer a co-pack program for most of our products.

Partnering with El Popular

When choosing a grocery vendor, most food retailers are likely focused on one thing: providing high-quality products for consumers at the lowest price possible.

It's probably a safe assumption to say that as a broker working with a variety of retailers, meeting your customers needs comes first, and that everything else falls into place beside it. And, if you're buying something like food, you're probably facing an extra layer of pressure to provide your customers the best, highest quality food options for their stores.

At El Popular, we believe that the way to do this is by buying your chorizo directly from the manufacturer. Why? Because it's cost-effective for everyone. But it's not just as simple as that.

Since 1925, El Popular has been committed to providing high-quality, authentic chorizo to consumers. In that time, we've been able to determine that there are many benefits that come from partnering directly with a chorizo manufacturer.

In this article, we'll highlight the primary benefits that come with buying directly from a chorizo manufacturer. By the end of the article, you'll be able to make a better informed decision regarding where you should buy your chorizo and why.

The benefits we'll be touching on in this article include:

- ✓ Quality control
- ✓ Price
- ✓ USDA and SQF Compliance
- ✓ Lead Times
- ✓ Logistics

What Are the Benefits of Buying Your Chorizo Directly from the Manufacturer?

Speak with a rep directly

 219-677-2064 | Edward Garza

 sales@elpopular.com

There's a high level of quality control

When you purchase directly from a manufacturer, you have a much better understanding of the quality control measures in place at the facility of origin.

The best example of this at El Popular is spices. If you're buying from a supplier or elsewhere, you may be getting products that are seasoned with a cheaper version of a spice, which will change the taste of the sausage or sauces that you're purchasing.

When you purchase directly from the manufacturer, we have complete control over the spices used in our products, and can guarantee that high quality spices are being used in all products. It depends on your needs and budgets, but a high-quality spice will mean a higher quality taste.

It's cost effective

The primary benefit of buying your chorizo directly from a manufacturer is the cost savings. When you buy it elsewhere it is often privately labeled, which drives a 15% to 30% markup on that product. At the end of the day, the retailer is going to be at a disadvantage, which also puts the consumer at a disadvantage.

In fact, when you look at all the brands of chorizo on the market today, less than 20% are actually made by the manufacturer. The other 80% are from a cold pack or private label program.

In the Chicago and Midwestern U.S. area, El Popular is one of the only manufacturers of Chorizo, which gives you an idea of how truly rare it is. What sets El Popular apart in this regard is that we offer a co-pack program for most of our products.

Note

Search

I'm going through this list, and I keep checking out other search results, again, I just feel strongly  was never a priority before. When or if this became a priority. There's incredible opportunity for you guys are really just start dominating these potential search results. Okay. Now I also this takes a second to load I threw in here it is. Just for giggles I threw in falling film evaporator is rising film evaporators and then evaporators and then as soon as we're done here, let's go to SEO Yoast. Okay, so are these three These are three I know evaporators is pretty broad that can probably represent a lot of things but by using film evaporators is that you?

2

Speaker 2 10:09

We replaced those we've sold them in the past but it's something that if somebody has a rising film, they want to replace it. We talked them into replacing it with a falling film or forced circulation.

1

Speaker 1 10:20

Okay, so so so again, just thinking out loud and bear with me from Ron, you know rising film evaporator replacement, you know, that would be a great potential keyword, right? Why replace your, you know, you know, Wi-Fi on film is superior to rising film type thing, right?
